

# TELUS Health MyCare | Victoria Clinic

Work in our new state-of-the-art family medicine clinic in Victoria, which provide both episodic and longitudinal team-based care.

Our Victoria practice is accepting new attached patients. Part of your week will involve video-based care for patients across BC, from home.

**Flexibility:** You will have flexibility to determine the split between in clinic and virtual care based on your preference.

**Teamwork:** You will work with and share patient-care with a team of like-minded physicians, nurse practitioners, registered nurses and pharmacists. You can refer patients to our in-house team of medical specialists.

**Simplicity:** Let us take care of billings and administration so you can focus on practicing medicine. There is no overhead cost for you.

# TELUS Health MyCare | About Us

TELUS Health MyCare™ is committed to putting patients at the center of care by leveraging the power of technology to drive better health outcomes for Canadians so they can live happier, healthier lives.

We're a publicly-funded primary care service. Our goal is to improve access to care for all British Columbians.

**Virtual care** Our Virtual Care application allows patients and their family to conduct medical consultations right on their phone, by encrypted text or video chat.

- Virtual access to clinicians for primary care and mental health care
- Prescription renewals, specialist referrals and lab requisitions
- Access to the medical notes from previous virtual consults, available to our healthcare professionals

## Wellness services

Good health is a lifelong journey. We address all aspects of patient wellness, from medical intervention and mental health to self-care and lifestyle management.

## Expert collaboration

As part of the TELUS Health family, we're committed to innovation, collaboration and excellence. Our clinic is staffed with physicians, nurses and medical office assistants to help our patients through their healthcare journey.

## Best-in-class technology

In addition to advanced facilities and the latest diagnostic technology, we offer virtual care, appointment reminders, and online patient support to optimize our patients' experience with us.
